This league is going to be different than most leagues. The reason being is that our sole purpose is for these kids to continue to play hockey during the off season while being in a fun and competitive atmosphere. We have synced this league with our website (www.durhamhockeyinstitute.com) so that the stats can be seen online. Schedule, time slots, scoring leaders, points leaders, etc. will be posted online so that the parents and children can see how they are progressing over the season.
